

Future of Work Conference March 4th - 5th, 2021

Join us for AMCHAM's HR Committee's signature event – Future of Work on March 4th-5th!

The HR Committee of AMCHAM aims to lead change to promote advocacy for critical areas in HR. COVID-19 has significantly impacted the labor market and radically transformed the way organizations conduct business. The year 2020 also witnessed some of the biggest layoffs and posed new challenges for the workforce. It is imperative to assess the 'new skills' needed and rapidly reskill the workforce. The need of the hour is to opt for greater digitization, substituting face to face interactions, to be more output oriented and a change in overall governance that ensures more employability by industry. U.S. companies have been leading in assessing the critical skills needed to succeed in the market and the technological advancements needed in HR analytics.
