MESSAGE

The 29th Annual General Meeting (AGM) of The American Chamber of Commerce in India (AMCHAM-India) is an admirable endeavour.

In the midst of challenges posed by the global pandemic, industry and enterprises have contributed in every possible manner, India needed. Our collectiveness has been the nation's strength during such a huge crisis.

As the economy of India is now recovering at a fast pace with unified efforts, new opportunities are also emerging. The Government is striving tirelessly to make the industry and businesses sustainable and productive in India.

Continuous steps are being taken to give impetus to the vision of Self-reliant India for global good. The speed and scale of reforms in various sectors is unprecedented, be it agriculture, manufacturing, industry, infrastructure, or information technology.

The world looks towards India with trust and confidence. Growing India-US relations strengthen our democratic values and cherish human enterprise. Strong relations between the world's largest democracies are rooted in commonality of interests, and it is in this context that the focus of the AGM – “India @ \$ 5 Trillion – Strengthening opportunities, removing hurdles” becomes very relevant.

I am positive that the participation of various stakeholders at the 29th AGM will facilitate wide-ranging deliberations for taking the economic relationship to even greater heights.

I wish the 29th AGM of AMCHAM-India all success.

(Narendra Modi)
